BRIEFING ROOM

Executive Order on Advancing Biotechnology and Biomanufacturing Innovation for a Sustainable, Safe, and Secure American Bioeconomy

SEPTEMBER 12, 2022 • PRESIDENTIAL ACTIONS

these technologies is most vivid at the intersection of human health, biotechnology and biomanufacturing can also be used to achieve our climate and energy goals, improve food security and sustainability, secure our supply chains, and grow the economy across all of America.

For biotechnology and biomanufacturing to help us achieve our societal goals, the United States needs to invest in foundational scientific capabilities. We need to develop genetic engineering technologies and techniques to be able to write circuitry for cells and predictably program biology in the same way in which we write software and program computers; unlock the power of biological data, including through computing tools and artificial intelligence; and advance the science of scale-up production while reducing the obstacles for commercialization so that innovative technologies and products can reach markets faster.

(iii) develop joint training arrangements and initiatives to support bioeconomy jobs in the United States;

(iv) work to promote the open sharing of scientific data, including genetic sequence data, to the greatest extent possible in accordance with applicable law and policy, while seeking to ensure that any applicable access and benefit-sharing mechanisms do not hinder the rapid and sustainable development of innovative products and biotechnologies;

(v) conduct horizon scanning to anticipate threats to the global bioeconomy, including national security threats from foreign adversaries acquiring sensitive technologies or data, or disrupting essential bio-related supply chains, and to identify opportunities to address those threats;

Nanotubes assemble! Rice introduces ‘Teslaphoresis’

HOUSTON – (April 14, 2016) – Scientists at Rice University have discovered that the strong force field emitted by a Tesla coil causes carbon nanotubes to self-assemble into long wires, a phenomenon they call “Teslaphoresis.”

The team led by Rice chemist Paul Cherukuri reported its results this week in [ACS Nano](#).

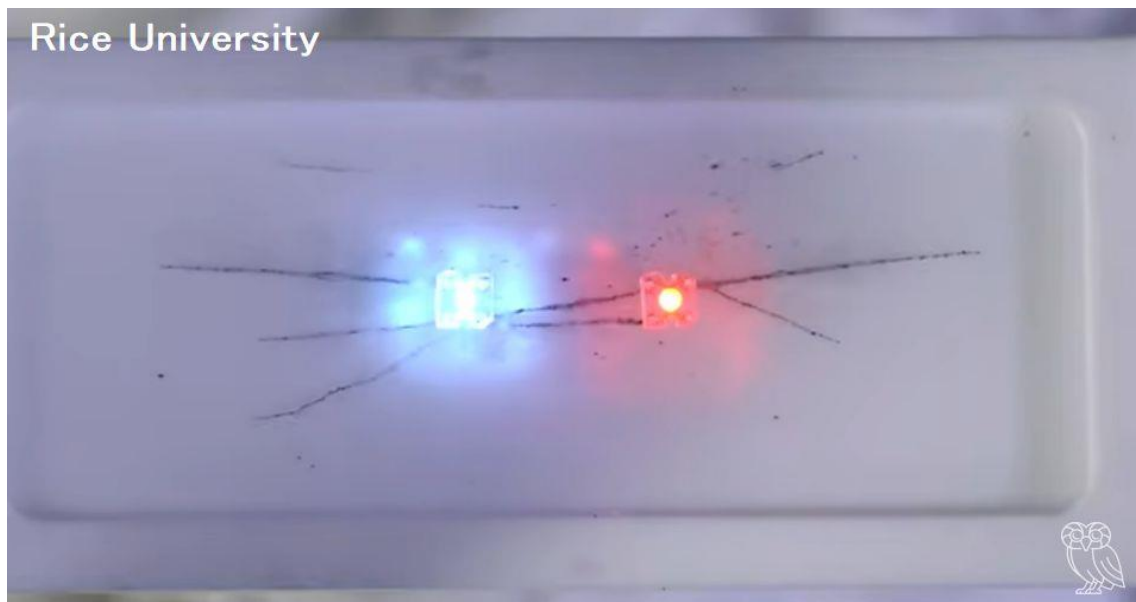

Nanotubes assemble! Rice introduces ‘Teslaphoresis’

HOUSTON – (April 14, 2016) – Scientists at Rice University have discovered that the strong force field emitted by a Tesla coil causes carbon nanotubes to self-assemble into long wires, a phenomenon they call “Teslaphoresis.”

“Electric fields have been used to move small objects, but only over ultrashort distances,” Cherukuri said. “With Teslaphoresis, we have the ability to massively scale up force fields to move matter remotely.”

Quoted from this site ;

Carbon nanotubes in a dish assemble themselves into a nanowire in seconds under the influence of a custom-built Tesla coil created by scientists at Rice University. But the scientists don't limit their aspirations for the phenomenon they call Teslaphoresis to simple nanowires. The team led by Rice research scientist Paul Cherukuri sees its invention as setting a path toward the assembly of matter from the bottom up on nano and macro scales.

NEW Nano Circuit Discovery :

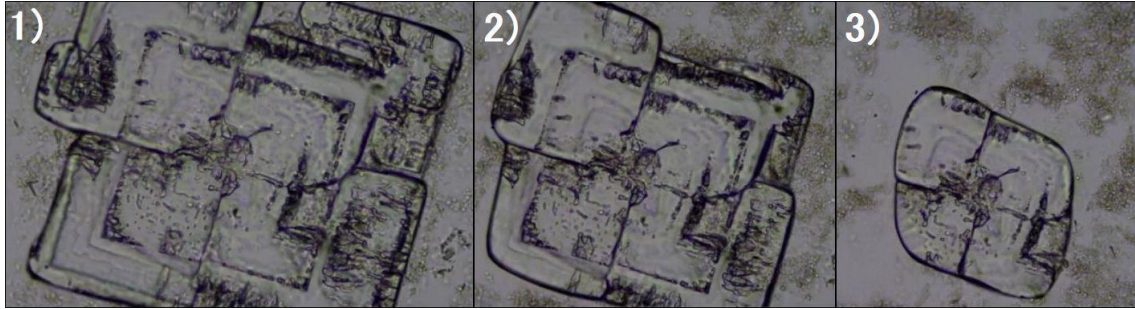

Frequencies from Phones, Laptops Build Circuits

Nano Circuit in the vials of the so called
"covid vaccine"

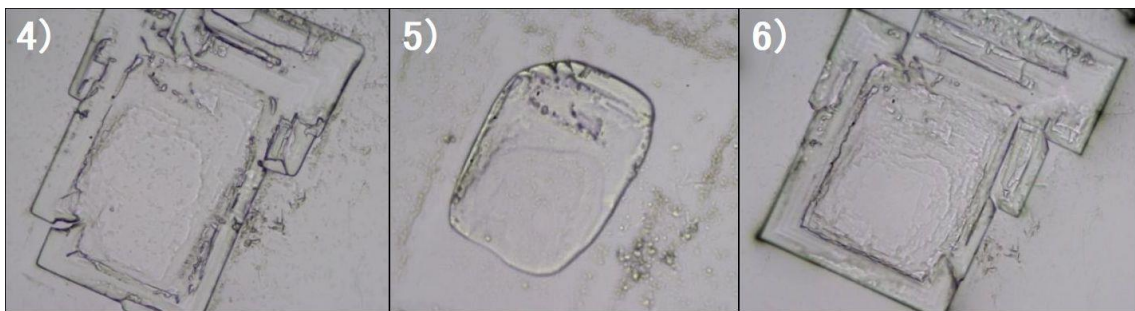

Nano circuits disassemble / vanish when there is no frequency like a cell phone, router, microwave, 5g towers and the like; and they reassemble once frequency is back in that area.

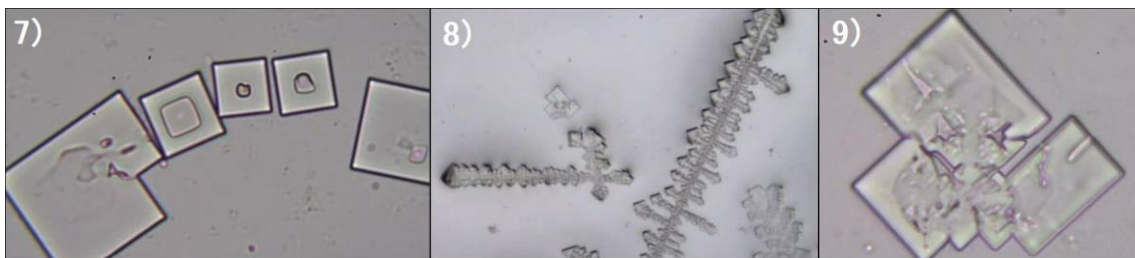

<https://rumble.com/v1j38wr-new-nano-circuit-discovery-frequencies-from-phones-laptops-build-circuits.html>

1) This formed over 3 hours under direct influence of 4G technology (the router). 2) This is what happens when Mr. Taylor takes the router away. 3) It slowly degrades (about 4 minutes increments), and it slowly goes back to the solution.

4) He turns on the router, and it grows step by step. 5) He turns off the router, and it shrinks again. 6) He turns on the router. It's a different format when it grows, it has a different geometry, but it still grows.

7) More and more chips. More and more rectangles. 8) These are far away to close in view of salt crystals. 9) These are not salt crystals. The things assembling on the inside are distinctly not a typical salt crystal.

Two video clips in the above video (9:43~ & 10:31~) greatly help us understand the images on the website "[Life of the Blood](https://lifeoftheblood.com/)", how on earth such incredible phenomena happened.

What EMF (electromagnetic field) can do

VACCINE NANO BOTS KILL AFTER BEING ACTIVATED BY A CELL PHONE

<https://rumble.com/vrfep7-watch-vaccine-nano-bots-kill-after-being-activated-by-a-cell-phone.html>

Here in Japan, I see so many people are completely addicted to the mobile phone, so much so that many of them cannot even walk the street without doing something with their mobile phone. In the train or subway, it is hard to find anyone not touching their smartphone, so we are automatically surrounded by those electric devices which emit strong microwave.

And I have impression that most of them **have no idea** about the EMF that their mobile phone is emitting. And they don't

care at all about how it is affecting them and people around them.

Nano metal particles in the experimental injections so called “vaccine” that so many people have accepted into their body, can self-assemble when they are affected by electromagnetic waves, emitted from devices like a cell phone, router, microwave, and 5g towers.

What if “Teslaphoresis” happens in people’s veins and arteries ? The video above is telling us what smartphone can do against us.

Consequence ?

This is what's happening in Japan.

As I reported in my document ["Even Mainstream Media Began to Speak"](#), now they are openly speaking about Japan’s massive depopulation.

In February 2023, NIKKEI Asia reported that **“Deaths jumped 8.9% in Japan in 2022 to almost double birth total. Record 1.58m people died, showing impact of aging population, COVID”**

In 2021, Mainichi Japan Newspaper reported that **“Japan’s population falls by record 644,000 to 125.5 mil. in 2021”**.

In 2022, **it reached a decline of almost 800,000 people** as the graph below shows.

There is something very special about this injection.

Question

Do you accept these experimental
injections into your body, and
into your children ?

May the LORD God The CREATOR
SAVE YOUR SOUL .

This is what the Bible says;

And the times of this ignorance God
winked at; but now commandeth all men
every where to repent. (Acts 17:30)

For God so loved the world, that he gave his only begotten Son (=Jesus Christ), that whosoever believeth in him should not perish, but have everlasting life. For God sent not his Son into the world to condemn the world; but that the world through him might be saved. (John 3:16,17)

And brought them out, and said, Sirs, what must I do to be saved? And they said, Believe on the Lord Jesus Christ, and thou shalt be saved, and thy house. (Acts 16:30,31)

May the LORD God The CREATOR
SAVE YOUR SOUL .
