Document by [Dennis Bushnell](#), NASA Langley's Chief Scientist.

[Worldwide] Impacts of Ongoing IT Revolution Upon Society

- **Tele-commuting**
- **Tele-shopping**
- **Tele-entertainment**
- **Tele-travel**
- **Tele-Education**
- **Tele-medicine**
- **Tele-commerce**
- **Tele-politics**
- **Tele-socialization**

Future Strategic Issues, 7/01

AI (AND BEYOND) COMPUTING

Human Brain Characteristics/Capabilities

- 100 billion neurons
- 100 trillion connections
- 200 calculations/second, (slow) speed of neural circuitry
- 20 million billion calculations/second
- Excellent at (parallel-computing) pattern recognition, “poor” at sequential thinking
- Operates via “random tries”

Machine Capabilities

- Currently, 10,000 billion calculations/second; 100,000 billion by 2004
- By 2010, 20 million billion is available (by 2025, on a PC)
- By 2030, PC has collective computing power of a town full of human minds

Future Strategic Issues, 7/01

Micro Dust Weaponry

A Mechanical Analog to Bio, Micron sized mechanized “dust” which is distributed as an aerosol and inhaled into the lungs. Dust mechanically bores into lung tissue and executes various “Pathological Missions.”

A Wholly “New” class of Weaponry which is legal.

Future Strategic Issues, 7/01

EFFECTS OF LOW POWER MICROWAVES (U.S. ARMY, SRI, WALTER REED)

- **Behavioral performance decrements**
- **Seizures**
- **Gross alteration in brain function**
- **30 % to 100 % increases in brain blood flow**
- **Lethality**
 - **Interactions between low power
(microwatts per sq. cm./4 to 3 GHz) MW and brain
function**

Future Strategic Issues, 7/01

50

Some Interesting “Then Year” BW Possibilities

- **Aflatoxin - (“natural,” parts-per-billion,
carcinogen)**
- **Airborne varieties of Ebola, Lassa, etc.**
- **Binary agents distributed via imported
products (Vitamins, Clothing, Food)**
- **Genomically (individual/societal) targeted
pathogens**
- **Long term/fingerprintless campaign (as
opposed to “shock and awe” BW)**

Future Strategic Issues, 7/01

52

Summary - Major Influences of IT/Bio/Nano Upon Future Warfare

- **Ubiquitous miniaturized/networked multi physics, hyperspectral sensors**
- **Robotics/Automatics “in the large”**
- **Long range precision strike/targeting**
- **Info/net Warfare**
- **Mini/micro/nano Sats, Cruise, UAV’s**
- **Binary Bio Weaponry**
- **Miniature/ubiquitous “smart mines”**

Future Strategic Issues, 7/01

And Then There Is NANO ...

Future Strategic Issues, 7/01

Exploit “CNN Syndrome”

- Sink Carrier(s) via “swarm attacks”
- Capture/torture Americans in living color on prime time
- “Terror” attacks within CONUS (binary bio, critical infrastructure “takedown,” IO/IW, EMP, RF against Brain, etc.)
- Serious “Psywar” (collateral damage exploitation, etc.)

Future Strategic Issues, 7/01

Typical Scenario - “Takedown” of U.S. by 10 People and <\$10M

- Binary Bio [via (imported Vitamins/Clothing, etc., food supply(s))]
- Terror Bio (e.g. Aflatoxin)
- IW (“usual” plus physical against key nodes such as Railroads - take down the economy)
- Selective anti-personnel RF/MW (Towers)
- Water Supply Contamination via Intercontinental UAV’s

Accompanied by SERIOUS “PSYWAR”

Future Strategic Issues, 7/01

**What is needed is a “Then Year” (~2030)
Serious/Holistic Vision of Warfare Changes
Resulting from the On-going
IT/Bio/Nano/Virtual Technological Revolutions**

- Such does not exist, “bumper sticker” attempts extant.
- All are agreed, warfare will become increasingly robotic and probably more affordable, swarms of sensors/shooters are a given.
- A longer term “Vision” of these changes would enable “mapping” from the present, NOT AT ALL CLEAR HOW TO “Get There From Here” as do not know where “there” is!

Microsoft founder Bill Gates (Source: Bill and Melinda Gates Foundation)

<https://voi.id/en/technology/31844/bill-gates-predicts-2-major-disasters-after-covid-19>

In March 2021, 14 months before the firist report of MONKEYPOX.

In March 2021, the Nuclear Threat Initiative (NTI) partnered with the Munich Security Conference (MSC) to conduct a tabletop exercise on reducing high-consequence biological threats.

“The Munich Security Conference has received funding of \$1.2 mil from The Bill & Melinda Gates Foundation. The Nuclear Threat Initiative (NTI) has also received \$3.5 mil from The Bill & Melinda Gates Foundation in the name of Vaccine Development.”

(Quoted from this website ;

<https://threadsirish.substack.com/p/did-you-know-that-a-2021-report-predicted?s=r>)

ANOTHER PANDEMIC EXERCISE

About the Exercise

In March 2021, NTI conducted a Tabletop Exercise on Reducing High-Consequence Biological Threats, the third in a series of annual collaborations between NTI and the Munich Security Conference. The exercise examined gaps in national and international biosecurity and pandemic preparedness architectures and explored opportunities to improve capabilities to prevent and respond to high-consequence biological events. The exercise included 19 senior leaders and experts from across Africa, the Americas, Asia, and Europe with decades of combined experience in public health, biotechnology industry, international security, and philanthropy. (See the box on page 9 for the list of exercise participants.)

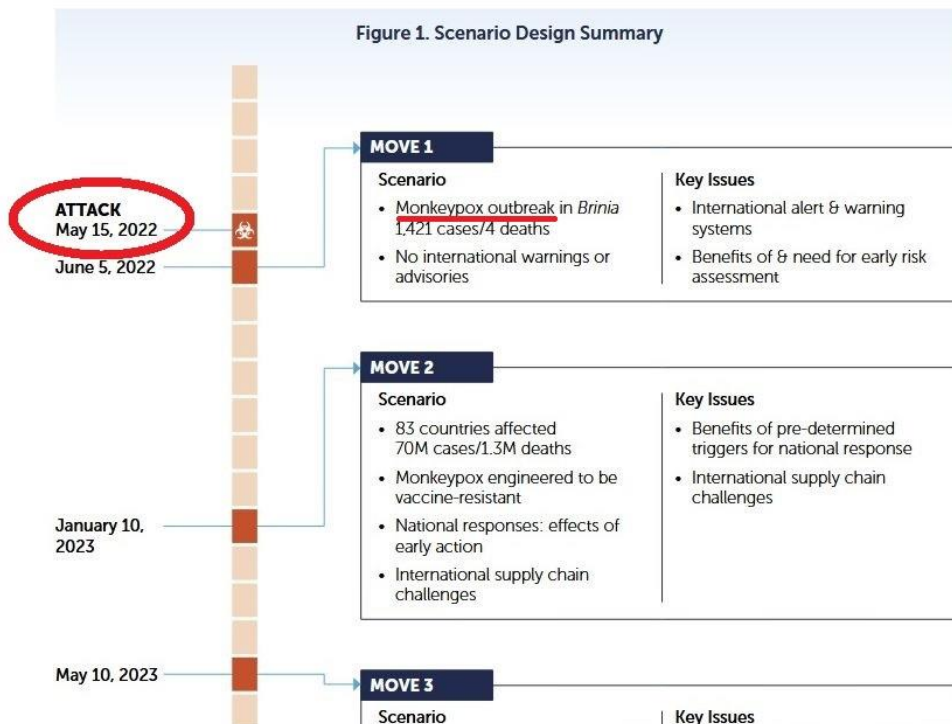

Exercise Scenario

Developed in consultation with technical and policy experts, the exercise scenario portrayed a deadly, global pandemic involving an unusual strain of monkeypox virus that first emerges in the fictional country of Brinia and eventually spreads globally. Later in the exercise, the scenario reveals that the initial outbreak was caused by a terrorist attack using a pathogen engineered in a laboratory with inadequate biosafety and biosecurity provisions and weak oversight. The exercise scenario concludes with more than three billion cases and 270 million fatalities globally. As part of the scenario development process, NTI conducted a virtual consultation with experts in December

https://www.nti.org/wp-content/uploads/2021/11/NTI_Paper_BIO-TTX_Final.pdf

The discussion was organized into three sequential “moves” corresponding with scenario developments, followed by a roundtable discussion of broader biosecurity and pandemic preparedness issues. The step-by-step approach to revealing scenario developments reflected the limitations of information available to real-world decision makers, as well as the resulting uncertainty associated with a pandemic of unknown origin (see Figure 1).

https://www.nti.org/wp-content/uploads/2021/11/NTI_Paper_BIO-TTX_Final.pdf

<https://www.youtube.com/watch?v=obRG-2jurzo>

And again.

On October 23, 2022, ?? months
before the outbreak of the next plan.

Organized by the same people (except WORLD ECONOMIC FORUM this time)
who did the COVID-19 PANDEMIC EXERCISE.

<https://www.centerforhealthsecurity.org/our-work/exercises/2022-catastrophic-contagion/index.html>

Have you noticed that the people at the table are not wearing masks? Because they know how pointless and harmful it is.
